# 1,800 Calorie Daily Meal Plan

### Meal planning guidelines:

- Eat meals at regular times, with no more than 4-5 hours between meals/snacks. Do not omit a meal or a snack. Use the portion size indicated on the "Substitution Lists" accompanying this sheet. Any fat used in preparation of food must be taken from the fat allowance of your meal plan.
- Try to include foods with high-fiber content, such as whole-grain breads and cereals, and fresh fruits and vegetables. NO fruit juices!
- Choose lean meats more often than medium-fat or high-fat meats. Meats should be weighed or measured after preparation.
- Avoid frying. Bake, broil, roast, steam, grill, poach, or boil foods instead.
- Avoid concentrated sweets, such as pies, cakes, pastry, honey, syrup, regular soft drinks, and foods that are very high in sugars. The suffix "-ose" usually indicates a sugar, such as sucrose. Read food labels carefully.
- Exercise regularly, based on your physician's recommendations.

### BREAKFAST

- 1 Meat (List #5)
- 1 Starch (List #4)
- 1 Milk (List #1)
- 1 Fat (List #6)

### MORNING SNACK

- 1 Fruit (List #3)

### LUNCH

- 3 Meat (List #5)
- 2 Starch (List #4)
- 2 Fat (List #6)
- 2 Vegetable (List #2)
- 1 Fruit (List #3)

### AFTERNOON SNACK

- 1 Meat (List #5)
- 1 Starch (List #4)

### DINNER

- 3 Meat (List #5)
- 2 Starch (List #4)
- 1 Milk (List #1)
- 2 Fat (List #6)
- 2 Vegetable (List #2)
- 1 Fruit (List #3)

### EVENING SNACK

- 1 Starch (List #4)
- 1 Milk (List #1)
